NEIGHBORHOODS & HOUSING

THE FINAL N&H SUBCOMMITTEE MEETINGS WILL FOCUS ON THE DRAFT OVERLAY DISTRICT FOR THE PROPSECT CORRIDOR:

CONCEPT BOARD: URBAN COMMUNITY NODE

Urban Community Nodes are intended to create centralized community destinations at highly utilized transit centers, particularly where east-west crossing transit corridors meet the Prospect MAX. The Urban Community Node enables a broad range of pedestrian-friendly uses, including retail and services, employment, institutions, and residential uses in a compact, walkable development pattern. District-wide parking strategies allow this district to serve as a community destination yet maintain pedestrian focus and transit accessibility.

CONCEPT BOARD: URBAN NEIGHBORHOOD NODE

Urban Neighborhood Nodes are intended to establish smaller-scale, neighborhoodoriented commercial hubs at Prospect MAX transit stops. This subdistrict enables lower intensity commercial and institutional uses to meet daily needs for surrounding neighborhoods. The Urban Neighborhood Node establishes a compact, walkable development pattern that is of a limited scale and height to complement adjacent neighborhood settings.

CONCEPT BOARD: URBAN INDUSTRIAL NODE

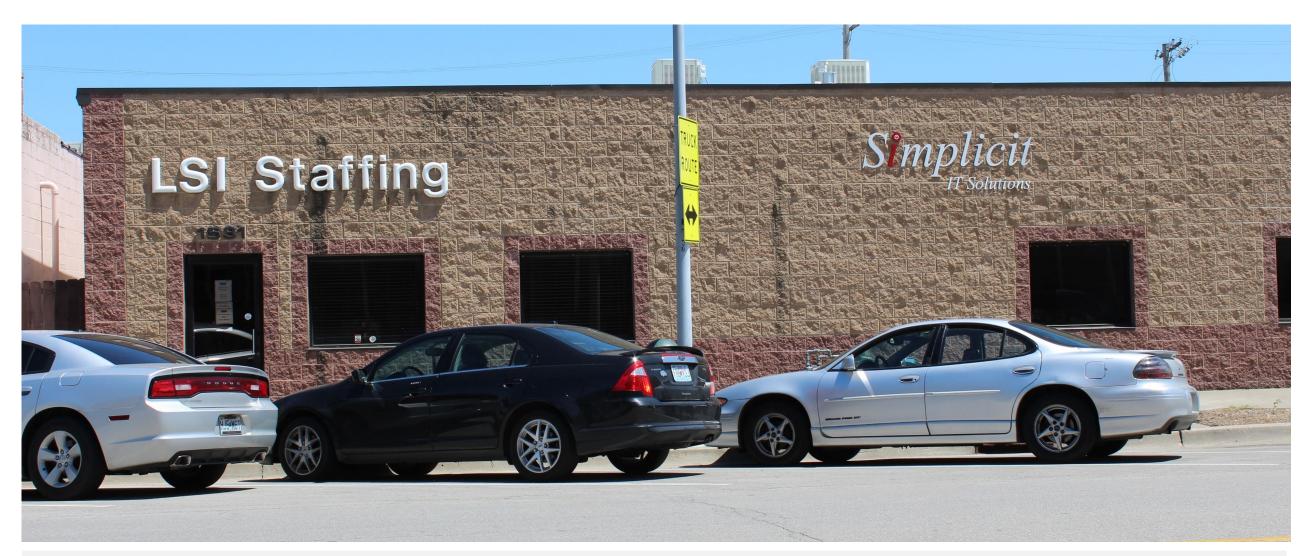

Urban Industrial Nodes are intended to create centers of regional employment opportunities accessible by transit. This node includes a concentration of industrial, warehousing, distribution services, institutions, and commercial and service uses in a connected, walkable development pattern. The nodes are supported by the cross-transit corridors.

CONCEPT BOARD: TRANSIT CORRIDORS

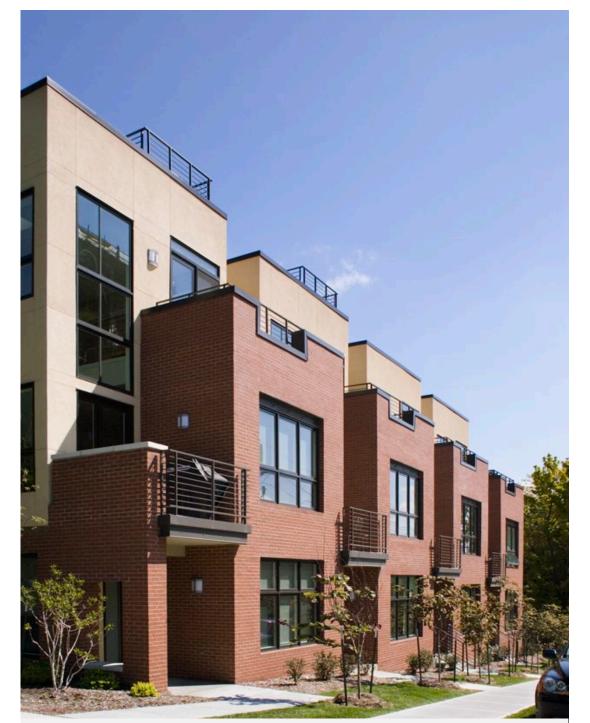

The Transit Corridor subdistricts are generally established between the distinct nodes of the Prospect MAX Corridor, as well as along major east/west cross-streets. This subdistrict provides an opportunity to allow for "middle housing" types such as townhomes, colonnades/walk-ups, small apartments, etc.) to support the goods and services offered within the nodes. This subdistrict is intended to be residential in nature, and reinforce walkable development patterns.
